## EXTRAORDINARY NETWORKING

In addition to our outstanding sessions, much of our meeting time is spent exploring Newport, RI - a feature of our meetings that our attendees LOVE, and that provides plenty of structured time for members to network and learn from each other, fellow leaders of health professional associations, schools and accrediting bodies. We take the invaluable "hallway conversations" we've been missing these past years, take them out into the open, beautiful environs of Newport, RI, and give them plenty of time. **Join HPN in person for an extraordinary meeting experience!**
